The minutes of the tenth meeting were approved without changes.

The only topic of the meeting was to produce a draft of the recommendations chapter to be circulated in the community according to the following procedure:

Each NuPECC member should send a copy to at least the directors of laboratories in his/her country; NuPECC members of the same country should coordinate their procedures.

In addition, one NuPECC member per country will be provided with the labels of the mailing list for his/her country, used for the distribution of Nuclear Physics News. Going through these labels, each NuPECC member should feel free to choose additional colleagues the draft should be sent to.

All comments should have been received by either the NuPECC members or the Scientific Secretary well before the next NuPECC meeting, which will take place on September 6 and 7, 1991, at the Technische Universität München in Garching.
